# SONIC 100W, 150W & 200W, 5000K LED HIGHBAY, IP65, 1M FLEX AND SWIFT CONNECTOR, 1-10V DIMMABLE

This modern looking range of fittings with an "All Around" IP65 rating provide solutions for high, medium or low height lighting applications in many diverse environments. Making huge energy savings compared to traditional light sources, even greater savings can be achieved using the standard dimmable driver and optional Robus sensors

## Applications:

- Warehouses & storage areas
- **Factories**
- Manufacturing & Assembly areas
- Bus or coach garages
- Gymnasiums & sports halls
- Agricultural buildings
- Shopping centres & superstores
- Airports buildings

#### **Construction:**

Die cast aluminium body Black powder coating finish Clear tempered glass cover Stainless steel mounting eye Stainless steel screws and fixings Aluminium PCB

### Features:

#### Benefits:

•	Full range to replace traditional metal halide up to 400W	•	Provides an energy saving LED solution for most MH installations	
•	Body manufactured from die cast aluminium with black powder	Will not rust and will always look good		
	coat spray finish	•	Strong and durable with high impact rating	
•	Stainless steel fixings	•	Not easily damaged if knocked by fork lift or sports equipment	
•	Clear tempered glass cover with seal	•	Not easily broken	
	, •	•	Maintains the overall IP65 rating so can be installed in damp or	
			dusty environments	
•	Narrow beam lens, surface mount bracket and wire guard	•	Provides for high or surface mounting options and offers	
	accessories available		protective guard for sports venues	
•	Utilises Jufei Optoelectronic LED's to provide	•	Quality LED's provide:	
	High flux		Comparability to Metal Halides so a one for one replacement	
	<ul> <li>Low power consumption</li> </ul>		<ul> <li>Reduces energy costs by around 50%</li> </ul>	
	High efficacy		Ensures compliance with current and foreseeable regulations	
	Long life		Up to 5 times longer life than MH, providing huge lamp change, labour & access equipment cost savings	
•	High-quality 1-10 VDC dimmable constant current driver	•	Provides for manual, or with dimming sensor, automatic dimming for Daylight Harvesting to further reduce energy consumption	
•	Solid state technology	•	Rugged – No heat filaments or electrodes to prematurely fail due to vibration & hot/cold temperature variations	
		•	Can be switched by external microwave, PIR and/or photocell	
		•	Short time delay switching can be used	
		•	Instant on, no warm up time for increased convenience and safety	
•	Wide operating ambient temperature range	•	Ideal for unheated buildings or those with wide day/night	
			temperatures	
		•	Suitable for installation in hot environments such as steel	
			processing or cold areas such as chilled or freezer applications	
•	Stainless steel mounting eye with locking screw	•	Provides for fast and simple mounting	
•	Optional surface mount kit and wire guard	•	Allows alternative mounting methods and safety for sports halls	
•	Wired with 1m, 3 core flexible rubber cable & Swift connector	•	Plug and play with large termination area	
•	Body rear has several pre-drilled and tapped fixing holes	•	Safety wire or sensors can be attached if required
